

BROS LTD LYTTELTON NEW ZEALAND

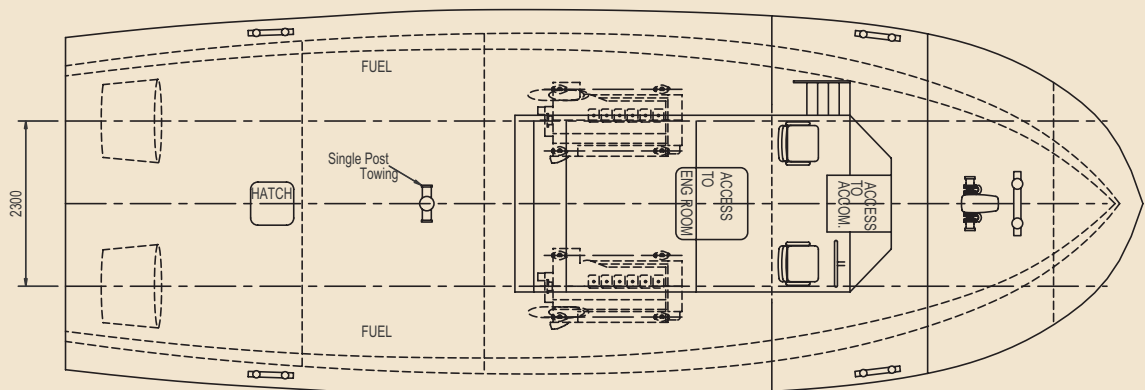

SB-W15T workboat

The 15m Twin Screw Workboat is an enlarged version of the 14m (SB-W14T), with more beam to provide increased stability during tug/towage movements, and increased Engine Power to increase the bollard pull delivered via the steerable nozzles.

The Wheelhouse size and layout are able to be altered to suit owners specifications, with optional "flybridge" steering station.

The 1.9m draft enables work in shallow and restricted waters, while the hull also provides excellent sea keeping for work in coastal waters.

The vessel is designed with a clear aft deck, maximising the options available for customised configuration, including the addition of various items of deck equipment.

SB-W15T specifications

Principal Particulars

Length Overall	15 m	Free Running Speed	8.5 knots approx.
Length - D.W.L	14.57m	Bollard Pull	approx. 7 tonnes
Beam moulded	5.4m	Fuel Oil Capacity	7,000L approx.
Draff - D.W.L	1.9 m	Fresh Water Capacity	1,000L approx.
Displacement	51 tonnes	Lube Oil Capacity	400L approx.

Main Engines	2 x 360 HP @ 1800 rpm Continuous Rating
Gearboxes	3 : 1
Propulsion	2 x 36" x 38" 4 bladed propellers
Electrics	24v DC and 230v AC via 2.5kva inverter

Design Description

Construction

The vessel is constructed to full survey approval.

The hull shall be of welded steel construction following the conventional system of transverse framing with square transom and double chine.

All steel shall be blasted and painted.

Propulsion

The vessel is designed with twin 360 HP continuous rated engines running at 1800rpm to provide approximately 7 tonnes bollard pull through the twin steerable nozzles.

Should 7 tonnes bollard pull not be required then installed HP can be reduced to 255HP while still maintaining adequate speed and workboat capabilities.

Controls

Full engine instrumentation, joystick steering, Radar, VHF radio, Echo Sounder, GPS, Coastal Navigation Aids.

Accommodation

2 single berths in the forward accommodation space, WC and Shower.

Galley

Sink with Hot & Cold Water, Fridge, Microwave, Electric Kettle, etc.
