

TRANSPORT AND STORAGE

WELL EQUIPPED FLEET OF HEAVY VEHICLES

STARK BROS LTD is a long-established and well-respected Boat Building / Dry Docking and Ship Repair and Transport business based in Lyttelton.

Our busy transport division operates a wide range of equipment. Four crane trucks — including the BIG Palfinger PK92002 with flyjib and winch wire that can lift 3.1 tonnes

at 20m and 1.2 tonnes at 29m, plus a PK78002 with flyjib and winch wire. All crane trucks have remote controls. Our crane trucks work throughout Canterbury lifting tanks, concrete panels, gib and other materials into buildings, pumps, and a huge range of items as required.

Our fleet also includes curtainsiders, flatdecks, low loaders, tankers and other specialist equipment.

We offer a versatile service. We can lift only, lift and transport, or just transport — whatever you need we can provide.

STORAGE FACILITIES

We operate a number of storage facilities and transport products to and from store, in addition to general transport of pallets, piece cargo, liquids and containers for a wide

range of clients. We also provide devanning of containers and Over-Dimension Cargo in our MPI and Customs certified facility.

We specialise in short call work and we will work with you to make sure you get the service where and when required. Our business is based on service and no job is too big or too small. Tell us how we can help YOU.
